REPRESENTATIVE DRIEHAUS WELCOMES DEPARTMENT OF EDUCATION FUNDING FOR THE UNIVERSITY OF CINCINNATI

WASHINGTON, DC—Representative Steve Driehaus today welcomed an announcement by the Department of Education (DOE) of a \$200,000 grant to the University of Cincinnati's College of Education, Criminal Justice and Human Services, Teacher Education. This grant is provided under the Department of Education's Steppingstones of Technology Innovation for Students with Disabilities.

"The investment made by the Department of Education will directly impact our community by improving our schools in the Cincinnati area, the state of Ohio, and the entire country. The University of Cincinnati is a nationally recognized institution that will provide ground breaking results. Investing in education is critically important to our nation's prosperity," said Rep. Driehaus.

The Steppingstones of Technology Innovation for Students with Disabilities is designed to help students with disabilities achieve more in the classroom through technology-based approaches. These research efforts will be directed at improving results of education and early intervention, improving general curriculums, and improving statewide assessment systems. These efforts target students in preschool, elementary, middle school, and high school. This grant will be used over a two year period.
